

Young People's Health Resource Newsletter October 2021

To support professionals involved in the care of young people by signposting useful resources and highlighting opportunities for professional development.

Editor: Dr Janet E McDonagh, Clinical Senior Lecturer in Paediatric and Adolescent Rheumatology
(janet.mcdonagh@manchester.ac.uk)

YPHSIG: Young Persons Health Special Interest Group

Is a group of health professionals within RCPCH but with co-opted members from RCN, RCGP RCP and AYPH creating a focus for professionals within the college working in the field of young people's health? Non-RCPCH members are very welcome to join too. If you are interested in joining YPHSIG and/or would like to find out more about it, please go to www.yphsig.org.uk and/or follow us on @yphsig

AYPH: Association for Young People's Health

Is a charity and membership organization creating a focus for all professionals and organizations working in the field of young people's health in the UK? If you are interested in joining AYPH and/or would like to find out more about it, please go to www.youngpeopleshealth.org.uk.

Disclaimer

Resources detailed here have been identified as potentially useful and whilst every care has been taken to ensure that they are appropriate and/or relevant for adolescents and/or their healthcare providers, the author accepts no responsibility for the accuracy or suitability of their content

A new book , just out, for young people on how to be comfortable in their skin!

 McPherson T *Skin Conditions in Young People: A Practical Guide on how to be Comfortable in Your Skin* Oxford University Press 2021

- Written for young people in collaboration with several dermatologists, Psychologists, Psychiatrists, Nurses and patient groups. Any profits to go to the BSPD to help develop further resources

CASE NOTE REVIEWERS REQUIRED for NCEPOD study on "Transition from child to adult services"

National Confidential Enquiry for Patient Outcomes and Death NCEPOD is undertaking a study to explore the barriers and facilitators in the process of the transition of young people with complex chronic conditions from child to adult health services. NCEPOD are recruiting a multi-disciplinary group of healthcare professionals with a working interest in the care of this group of young people. Case reviewers will be asked to attend meetings during which they will assess case note extracts and questionnaires and provide expert opinion on the care young people receive. Two training days will be held on Thursday 9th December and Monday 20th December via MS Teams (if you are unable to make one of these dates, training on an ad hoc basis is possible). You would typically be required to attend/join a

minimum of 4 subsequent case reviewer meetings at the NCEPOD offices in London or via MS Teams. It is anticipated case review meetings will begin in February 2022 and will run for approximately 6 months. The data collected during these meetings will form a major part of the study's final report. Travel expenses will be reimbursed. NCEPOD are looking for clinicians from a wide variety of specialties, including (but not exclusive to) transition coordinators, paediatricians; physicians and surgeons; nurses; general practitioners; physiotherapists; speech & language therapists; occupational therapists; and hospital-based youth workers; working in primary, community, physical healthcare, and social care, with an interest in transition. NCEPOD aims to recruit clinicians from different clinical grades of at least ST6 and above to ensure that applicants have enough experience for the case note review aspect. Applicants should be in current clinical practice.

Further information about this study including a copy of the study protocol can be found on the webpage: <https://www.ncepod.org.uk/transition.html>

If you would be interested in acting as a case note reviewer for this study, please send a copy of your CV (short version) via email to the contact details below. **The deadline for applications is Friday 29th October 2021.**

Professional Webwatch

Health Transition

 <http://www.11to25hub.com/>

A charity funded project to develop an online resource, supporting health care transition from children's to adult services, supported by Imperial Health Charity – a site to watch as it develops. Follow it on social media @11to25hub

Vocational development of young people

 <https://www.youthemployment.org.uk/youth-voice-census/>

The 2021 Youth Voice Census from Youth Employment UK detailing the views and experiences of young people 14-24 across the UK on a wide range of issues across education, work, job hunting, the impacts of COVID-19 and much more.

 <https://www.autismeducationtrust.org.uk/>

New website of the Autism Education Trust, a not-for-profit organisation supported by the Department of Education.

Mental Health

 <https://www.youngminds.org.uk/young-person/blog/looking-after-your-mental-health-as-you-enter-the-world-of-work/>

ADvice from Young Minds charity for young people as they enter the world of work to help them look after their mental health.

Digital technology

 <https://www.goodthingsfoundation.org/insights/digital-exclusion-and-health-inequalities/>

Digital exclusion and health inequalities. A briefing paper, supported by the Health Foundation, provides an overview of digital exclusion and its relationship to health, social and economic aspects of people's lives.

 <https://diabetesonthenet.com/diabetes-care-children-young-people/consultation-prefs-covid-19/>

Jamroze H, Khaliq R, Zaidi R. **Consultation preferences of young adults with diabetes during the COVID-19 pandemic**

“There is a general preference for the face-to-face style of consultation, with virtual consultations being preferred among non-drivers and unemployed young adults. While anxiety around attending in-person consultations remains due to the pandemic, there is also a need to adopt a person-centred approach in offering clinic appointments to young adults with diabetes”

Research

 https://www.youtube.com/watch?v=Y8OqmEJZ9Eo&feature=youtu.be&ab_channel=YourRheum

A short animation created by young people to encourage young people with rheumatic conditions to join a national advisory youth panel which supports adolescent and young adult rheumatology research as part of the Barbara Ansell National Network for Adolescent Rheumatology.

The Work Ready Network project.

In your work with young people (in the 10-24 year old age range) do you address vocational issues of any kind with them? We would like to hear from you either way! We are a group of researchers in the University of Manchester who are building a research programme to look at the work readiness of young people with long term health conditions and how professionals and in particular health professionals can support such young people as they enter the world of work.

 Please head to https://www.qualtrics.manchester.ac.uk/jfe/form/SV_egL65CCJ0rxAh2S to anonymously share your opinion. We will use the information collected to inform the development of a network of professionals interested in future research in this area and a potential research agenda.

If you would be willing to be interviewed by phone (or via an online platform if you prefer) for this study, please contact laura.lunt@manchester.ac.uk for further information

The project is led by Dr Janet McDonagh at the University of Manchester in collaboration with colleagues at the University of Manchester and Dundee. Study Twitter account: @WorkReady_UK

Call for submissions addressing Young People's Health

Special Issue in **Healthcare Journal** (Impact factor recently increased from 1.916 to 2.645) "Adolescent and Young Adult Health through a Developmental Lens" (Guest editors Janet E McDonagh and Albert Farre) Submission deadline November 2021.

https://www.mdpi.com/journal/healthcare/special_issues/Adolescent_Young_Adult_Health_Developmental_Lens

New Journal "**Youth**" recently launched. <https://www.mdpi.com/journal/youth>.

Youth is an international, open access, peer reviewed journal on education, sociology, economics, cultural studies and other social perspective of youth and young adulthood published quarterly online by MDPI.
